

A Home for Everyone

Unit 1 • Week 2 • Tuesday Storytelling

During Blocks, Amir found three people figures waiting beside the shelf.

“They need somewhere to live,” he said.

He built a small house with two walls and a roof. Then he noticed there were three people but only one little room.

Lena brought over more blocks. “We could make the house bigger,” she said.

Together they added another room. Then they built a sidewalk so the people could visit each other.

“Maybe they are neighbors,” Amir said.

Lena added one more little building across the road. “Now they can live close to each other.”

The children moved the figures from house to house, pretending they were visiting, helping, and sharing. Their block neighborhood had a place for everyone.
